Public Participation Program  
March 25, 2014

## ***I. Introduction***

The Southeast Regional Transportation Planning Organization (SERTPO) is the entity responsible for transportation planning in the region comprised of Chaves, Curry, De Baca, Eddy, Lea, Lincoln, Otero and Roosevelt counties in New Mexico per New Mexico Law. Regional planning organizations were originally founded by the New Mexico State Legislature in 1978 to orchestrate planning in nonmetropolitan areas.<sup>1</sup> The purpose of this document is to outline the State and Federal requirements for a Public Participation Plan for use by RTPOs. As an organization receiving Federal financial assistance for transportation planning, design, construction and maintenance, it is a requirement of State and Federal law that our organization develop and implement a program to foster continuing, cooperative and comprehensive (3-C) public participation. This program may be general, or project specific. In addition to being a regulatory requirement, public participation maximizes the benefits of transportation planning processes and outcomes. Accordingly, our organization recognizes that the travelling public has valuable insight to offer, in addition to a right to contribute to the planning process.

## ***II. State and Federal Requirements***

RTPOs have numerous responsibilities including the development and contribution to Long Range Plans (LRPs), Regional Transportation Improvement Plan Recommendations (RTIPRs), provision of technical assistance to local officials, coordination of local planning across multiple disciplines, interagency/ tribal coordination of local planning, and creating opportunities for public participation. The Federal government defines public participation as “an open process in which the rights of the community to be informed, to provide comments to the Government and to receive a response from the Government are met through a full opportunity to be involved and to express needs and goals”.<sup>2</sup> Our public participation program is an opportunity to provide for this process and pertinent State and Federal requirements are summarized below.
